- Dr. Goldman is a true blessing! I have had flat feet my whole life which caused me back issues. I suffered from back pain everyday and I thought it was nothing I could do unless I got surgery, which I didn't want. I read great reviews about his non-surgical treatment and I was a bit skeptical. But within my first visit he diagnosed me with having on leg slightly longer, by 2-3 millimeter. Again I was skeptical but after wearing the small lift he gave me I AM SO GRATEFUL! My back pain is GONE!
